

# ANNUAL REPORT

2021 - 2022

## **Vision**

To ensure the inclusion of girls and boys, women and men with disabilities into mainstream society.

## **Mission**

To promote an environment where all girls and boys, women and men with disabilities have equal access to health, rehabilitation, education, employment, the physical environment and information.

## **Core values**

- ▶ Sensitivity
- ▶ Compassion
- ▶ Respect
- ▶ Collaboration
- ▶ Commitment to Excellence
- ▶ Cleanliness

## **Objectives**

- ▶ To provide treatment, rehabilitation and support services focusing on physical, emotional, social, psychological and economical aspects.
- ▶ To promote the development of skilled personnel in health care and rehabilitation in Bangladesh and the SAARC region.
- ▶ To develop centres in different parts of the country in order to expand the services for persons with disabilities in collaboration with other organizations.
- ▶ To organize and promote programmes for the prevention of disability.
- ▶ To develop programmes for early identification, therapeutic intervention and education.
- ▶ To promote advocacy and networking on disability issues.
- ▶ To promote empowerment of girls and women with disabilities.
- ▶ To promote empowerment of persons with disabilities through community based services.
- ▶ To raise awareness about disability issues regionally, nationally and internationally.
- ▶ To conduct research consistent with the vision, mission and overall objectives of CRP.
- ▶ To promote sports and recreational opportunities for persons with disabilities.
- ▶ To promote collaboration opportunities regionally, nationally and internationally in order to share experience and expertise.

## Message from the Founder

I write on behalf of each inpatient, outpatient, staff member, student, volunteer and Trustee to thank you most warmly for your crucial role in our partnership, where CRP's staff provide the professional input while you, our supporters provide voluntary assistance to enable the organization to run smoothly.

**This assistance is given in three main areas,**

- a. by the support of your prayers,
- b. by physically coming to volunteer your services,
- c. by supplying financial help particularly at a time when costs of food and fuel have risen in all countries of the world.

We have always found the general public in Bangladesh to be most generous in their giving and never needed to purchase a plot of land as consistently these have been donated by their owners, resulting in the creation of 11 small sub centres across the country. We now need to approach individuals and corporate bodies in an effort to finance the construction of each new treatment centre on the donated plot of land, as follows:

01. Khulna, land donated by the Akij group.
02. Sylhet (CRP presently rents a property in the city).
03. Gobindapur (Kulaura) expansion/modernisation of 4 old bungalows on the site.
04. Chattogram
05. Mymensingh
06. Manikganj
07. Moulvibazar
08. Pabna require funds for further floors to be added.
09. Barishal
10. Rajshahi

**Completed centres include: Savar, Mirpur, Ganakbari.**

At a recent ceremony for donating 5 acres of prime land in Rajshahi, we experienced a new phenomenon where members of the audience spontaneously committed funds for the new centre amounting to one crore taka. Receiving this amazing sum makes us feel very heartened for the future.

A new idea has come from a demand by parents of young people with disabilities, that their offspring need safe accommodation for when their parents are no longer alive and can look after their children. Plans are afoot to build a 6 storied building with two persons with disabilities on each floor.

We realise that this is a very expensive "wish list" but believe it is possible to raise this sum eventually, knowing that different Ministries of the Government of Bangladesh have supported CRP in the past along with the very generous Embassy of Japan.

Our renewed thanks to you for reading this request letter.

**Valerie A. Taylor**

Founder & Coordinator  
CRP

## Message from the Chairman TRP

I have the pleasure of presenting you the Annual Report of the Centre for the Rehabilitation of the Paralyzed (CRP) for the year 2021-2022, the first year after the unprecedented Coronavirus pandemic, COVID-19. I take this opportunity to send our thoughts and prayers for all the beneficiaries, donors, well-wishers and volunteers affected by that crisis, including their families, friends and relatives. We have not suffered a global health crisis of this magnitude in generations, and are more than grateful to all those frontline workers who have worked tirelessly to help keep others safe and provide the essential services that was needed.

"Alhamdulillah", CRP has advanced one more year towards achieving its vision, mission and sustainability in the field of health and rehabilitation services in Bangladesh. As demand for rehabilitation services from all over the country is increasing rapidly, CRP is planning to expand its services in the coming years. For now, In shaa a ALLAH, two regional centres will be established in the northern and southern parts of the country with the capacity to provide acute health management services along with the provision of Bachelor studies in health professions. ALLAH (Subhana Wa Ta'aala) has been very kind to us as we have already found some benevolent supporters who will work with CRP hand in hand for this greater cause, and we continue to look for more to join.

We are also pleased to inform you that, finally CRP Moulivibazar Centre moved to its newly constructed building on its own premises and we are thankful to our esteemed patrons, who donated the land and contributed to the construction of the centre. These are the examples of the love of people that CRP is continuously earning through

dedicated staff members and their selfless services. I believe this is also a manifestation of the core values of CRP, which they believe and practice in both their professional and private lives. Moreover, the Board of Trustees of CRP is continuously promoting ethics and values to ensure sustained dedication and commitment of the staff members in this world of today, where humane, social, moral, and religious values are rare commodities.

I would like to mention the enormous amount of quality time given by the dedicated Trustees in providing professional advice and guidance in steering CRP in the right direction. Our thanks are due to the Government of Bangladesh, particularly the Ministries of Health and Social Welfare, for providing financial grants to help the poor patients treated at CRP.

Alhamdulillah, CRP has come a long way with high credibility and lots of appreciations. But there is no scope of any complacency. We know we must continue on our path of compassionate care and dedicated services for years and decades to come.

Muhammad Saidur Rahman  
Chairman  
TRP

## Message from the Executive Director

I wish to start with a thought that, when we work together, we are able to make a difference. I am inspired by our trustees, donors, partners, volunteers and staff who have risen to the unprecedented challenges of this past year. They have demonstrated resilience and a dedication to the underprivileged communities we serve.

Despite uncertainty in the face of a global pandemic that magnified and exposed social and economic inequalities – there was an unwavering commitment to our mission to lead positive changes that strengthens CRP as a family. The extraordinary generosity of our donors allowed us to meet the needs of the poorest persons with disabilities. CRP as a team collaborated with government officials, local administrators, donors, non-profit organizations and philanthropic partners to deploy funds and resources for the greatest impact. I am recognizing and acknowledging the contribution of all without whom CRP would not have been able to serve almost 80,000 people with rehabilitation services in the reporting year.

CRP was very fortunate to have various donors who offered their support to establish endowment funds, through which CRP will be able to support its beneficiaries for a longer period. Particularly, we are thankful to the Motherland Charitable Foundation and American Friends of CRP for this great initiative.

The last year also highlights CRP's progression towards attaining sustainability and ensuring quality treatment and rehabilitation services. I am proud to say that CRP is becoming stronger in its commitment of being a model rehabilitation centre for persons with disabilities in Bangladesh for the last 43 years.

At the end, I once again express my gratitude to all our supporters for inspiring and being with us!

**Dr. Mohammad Sohrab Hossain**  
Executive Director  
CRP

## CRP Alumni

Centre for the Rehabilitation of the Paralysed (CRP) has taken another initiative through establishing alumni associations to involve different people who were previously directly engaged with CRP. From now they are encouraged to participate in different activities and add value to ensure the mainstreaming in society for the persons with disabilities in collaboration with CRP. According to valuable guidelines from the Founder, CRP and Executive Director, CRP eight (8) alumni associations have started their journey in this year. Below information about different alumni will help the people who want to connect with their respective alumni.

### **1. CRP Employee Alumni Association**

Focal Person: Md. Rashed Ibne Kamal, Senior Officer, HR (Mob: 01730059533)

Facebook: <https://www.facebook.com/groups/928434711093125>

### **2. CRP P&O Consumer Alumni Association**

Focal Person: Md. Waliul Islam, CPT, P&O Dept., CRP (Mob: 01559028169)

Facebook: <https://www.facebook.com/groups/141464044222541/>

### **3. CRP Cerebral Palsy Alumni Association**

Focal Person: Ms. Hosneara Parvin, Head of Paediatric Dept., CRP

(Mob: 01730059627)

### **4. CRP Stroke Patient Alumni Association**

Focal Person: Md. Harun-or-Rashid, Junior Consultant, Physiotherapy

(Mob: 01721170606)

### **5. CRP Volunteer Alumni Association**

Focal Person: Md. Mizanur Rahman, Volunteer Coordinator, CRP

(Mob: 01730059670)

### **6. CRP Nursing College Student Alumni Association**

Focal Person: Tonmoy Pasha, Lecturer, CRP Nursing College

(Mob: 01712316007)

## CRP TIMELINE: MAJOR EVENTS

Year	Event
1979	CRP is established in the grounds of Shaheed Suhrawardy Hospital, Dhaka
1981	CRP is shifted to a rented house in Dhanmondi, Dhaka
1986	CRP moves, once more, to a rented accommodation in Farmgate, Dhaka
1990	CRP finally moves to Savar, the present Head Office
1992	Bangladesh Health Professions Institute (BHPI) is launched
1992	2 Year PTA and OTA courses are initiated
1993	Permanent construction begins at Savar
1993	A "Special Needs School" (SENU) commences in the grounds
1993	Donation of land in Savar by Mustaque Ahmed
1993	CRP's Founder Valerie A. Taylor received Order of the British Empire (OBE) from Her Majesty Queen Elizabeth for her contribution towards humanity
1994	Community Based Rehabilitation (CBR) programme is initiated
1995	A branch of CRP is opened in Gobindapur, Moulvibazar District
1995	CRP introduces Paediatric services
1995	3-Year Diploma courses in Physiotherapy and Occupational Therapy are offered at BHPI
1997	Construction of the surgical theatres completed
1997	First students are enrolled in CRP's Rehabilitation Nursing Course
1998	CRP-Savar is officially inaugurated by the present and then Prime Minister Sheikh Hasina
1998	Completion of the construction of CRP-Ganakbari's main building and hostel
1998	Construction of CRP-Mirpur Building commences
1999	"Supportive Seating Unit" introduced with the support of "Motivation, UK"
1999	Telemedicine Link for Bangladesh is established at CRP
1999	Dhaka City Centre is founded at Mohammadpur, Dhaka
2001	Inauguration of CRP-Ganakbari by the Norwegian Ambassador, Gerd Wahlstrom
2003	Inauguration of CRP-Mirpur where a generous contribution from the Kadoorie Charitable Foundation covered 50% of the costs of the 13 storey building
2003	Mrs. Raihana Mahbub donates a piece of land in Manikganj to establish another CRP branch for vocational training expansion
2004	BSc in Speech and Language Therapy course is offered at BHPI
2004	Mrs. Leena Alam donates a 2-storey building on 15 decimals of land in Nawabganj
2004	CRP's Founder Valerie A. Taylor received Independence Award the highest award of the People's Republic of Bangladesh
2005	Domiciliary service is introduced at CRP-Mirpur

## CRP TIMELINE: MAJOR EVENTS

Year	Event
2005	CRP introduces the Prosthetics and Orthotics units with the help of the International Committee of the Red Cross (ICRC) and the Special Fund for the Disabled (SFD)
2011	Physiotherapy and Occupational therapy services start at A.K. Khan-CRP, Chattogram
2011	Inauguration of Speech and Language Therapy Department at CRP-Savar
2012	Received 0.161 acres of land from Mr. and Mrs. Mozaharul Hannan for Rajshahi Divisional Centre
2013	Valerie Taylor wins Rotary International "The One" award
2013	MSc of Physiotherapy course introduced
2013	REVIVE project for Rana Plaza survivors commenced
2014	Inauguration of Master of Rehabilitation Science at BHPI
2014	Prosthetics and Orthotics School launched at CRP-Savar
2014	Nursing College started at CRP-Savar
2014	CRP's Metal and Wood Workshops moved to CRP-Ganakbari
2014	Inauguration of E-library and Computer Laboratory at BHPI
2015	Inauguration of students and patients' residence (Marigold building) with the support of Rotary International, Hong Kong District 3450
2015	13th Asian Spinal Cord Network (ASCoN) Conference hosted by CRP
2015	Extension of Vocational Training Unit at CRP-Ganakbari
2016	Inauguration of CRP-Rajshahi, Afsar Hussain
2016	Bee Keeping Training for SCI patients is introduced at CRP-Savar
2017	CRP-Pabna, Diabetic Samity started its services with the donation of Pabna Diabetic Samity and Trustee Mustaque Ahmed
2017	4th divisional centre of CRP started its journey with the name CRP-Sylhet, Iskandar Shitara
2017	CRP- Mymensingh, BAU Branch started operations as the 5th divisional centre
2018	A day centre for people with mental health needs has been introduced at CRP-Ganakbari
2019	CRP celebrated the Ruby Jubilee (40 years) of its service.
2020	The Prime Minister of People's Republic of Bangladesh Sheikh Hasina donated 100 million Taka for supporting the treatment and rehabilitation of the marginalized patients of CRP
2020	CRP Manikganj started its services
2020	CRP Barishal shifted to own building
2021	CRP Moulvibazar Akhtarul & Afsarul Haque Centre moved to its own building

## CRP at a Glance

### CRP Services

- Health Services
- Assistive Devices and Technology
- Rehabilitation

### Human Resources

- Total staff 1,328 (91 of whom have physical disabilities, the Prottoy group)

### Income Generating Activities

- Shop & accommodation rental
- Printing press
- Wood workshop
- Metal workshop
- Plant nursery
- Compost production
- Mushroom cultivation
- CRP- Aware shop
- Cafeteria • Recycled Paper Technology
- Appropriate Paper Based Technology
- Pharmacy
- Social business

### CRP Centres

- CRP Savar
- CRP Mirpur
- CRP Chattogram - A.K Khan
- CRP Barishal - CARSA Foundation
- CRP Rajshahi - Afsar Hussain
- CRP Ganakbari, Ashulia, Savar
- CRP Moulvibazar - Akhtarul & Afsarul Haque
- CRP Manikganj
- CRP Gobindapur, Moulvibazar
- CRP Sylhet - Iskandar Shitara
- CRP Mymensingh - Bangladesh Agricultural University
- CRP Pabna - Diabetic Samity

Various Handicrafts

Baking and Food processing

Shop Management

Linking Machine Operator

Industrial Sewing Machine Operator

Mushroom Cultivation

## Annual Expenditure

- 655,507,505 BDT

## Health Services

### Medical Services

Medical Service Wing (MSW) works for admitted patients for 24/7 with the motto “Service to Sufferers is Service to God”. There are inpatient and outpatient (OPD) facilities. Inpatient care is only for spinal cord injured patients whereas out patient care is for orthopaedics, neurology, rheumatology, pediatric and psychiatric patients. Patients attendance at the OPD is increasing greatly day by day which is now becoming difficult to maintain with the existing staff and facilities.

CRP’s MSW has very good relations with national and international renowned surgeons. Last year Prof. Dr. Luis Garcia, a Spanish Spine Surgeon, visited twice to conduct some very critical and successful spine surgery with our surgical team.

Besides the spinal surgery, different kinds of adult and paediatric orthopaedic and plastic surgery have started at its well-equipped operation complex where some important instruments and facilities were donated by the Rotary Club of Gulshan, Bangladesh and The Rotary Club of St Austell Bay, UK.

**A case study:** Nupur, an 8 years old girl, was admitted into MSW with a spinal cord injury (resulting from a severely dislocated spine) on 15th March. Dr. Luis Garcia and our spine team conducted the critical surgery for 7 hours. Soon after surgery she slowly began to move her toes. Within two months of surgery with extensive physical therapy she could walk without any assistance.

“I can walk again, I can go to my school now” said Nupur, who now has a bright future after passing through some miserable days after her injury. “This is the greatest achievement in my 40 years’ career” said Dr. Luis with a smile after walking with Nupur in the hospital corridor. It was one of the most critical surgeries undertaken in the history of CRP’s journey, having a miraculous outcome.

2021-2022 Fiscal Year	
Out Patient Services	
Total Out Patients	84,628
Radiology Unit Services (Number of Patient)	25,049
Pathology Unit Services (Number of Patient)	14,374
Club foot management (Babies)	1638
In Patient Services	
Admission (SCI)	298
Male	243
Female	55
Admission with pressure sore	128
Re-admission	18
Total length of stay (Days)	122.43
Operation Theatre Services	
Spinal surgeries	48
Plastic surgeries	68
Orthopaedic surgeries	83
Paediatric Orthopaedic surgeries	39
Implant removals	26

## Physiotherapy

The Department of Physiotherapy has been providing service since the inception of the CRP, and this service will continue for the whole fiscal year despite the post-COVID-19 circumstances. Our core values and belief enable us to realize our objective and vision by offering services regardless of the conditions.

With an interdisciplinary team approach, the physiotherapy department cared for 25,610 outpatients with musculoskeletal and neurological disorders in addition to 298 in-patients with Spinal Cord Injury (SCI). Analysis of the data of the patients with Lumbar Spine problems shows a significant decline in pain, disability, and improvement in quality of life, consistent with results from past fiscal years.

In addition, in accordance with its awareness strategy, the department has continued its "Live-Face book Program" usually once a month but in the months of August–September once in a week.

Mohammad Anwar Hossain, the department head, has been pursuing a PhD from Jashore Science and Technology University (JUST) for his first COVID study as a Physiotherapist in Bangladesh. The title of the study was "Response towards COVID-19 among the Bangladeshi Population, Symptom presentations and Impact of Physiotherapy & Rehabilitation after COVID-19". In addition, seven articles were published in reputable international journals by the staff.

On September 8th, 2021, the physiotherapy department held celebrations for World Physiotherapy Day by publishing a special supplement in two national newspapers, containing special speeches from the honorable prime minister and from the relevant ministries. Also, we have hosted a live Facebook program, a webinar on our Facebook page titled "Department of Physiotherapy, CRP". The department also produced a video documentary on the activities of the Physiotherapy department sponsored by Nagad, the Digital Financial Service of Bangladesh Post Office.

**Group physiotherapy session for admitted patients**

## Occupational Therapy

**An occupational therapist working on a patient's arm mobility**

Occupational Therapy (OT) department is one of the integral parts of CRP's service delivery providing services to various health conditions. In OT-SCI in-patient unit 215 (72%) patients completed all stages of rehabilitation process out of 298 admitted patients in the current reporting year and their functional outcomes based on SCIM (Spinal Cord Independence Measure) were completely independent 24 (11.16%), independent with modified environment 141 (65.58%), independent with moderate support 30 (13.95%) and independent with maximum support 20 (9.30%) of the SCI survivors. Moreover, OT out-patient unit served 3431 patients and Hand Therapy and Splinting unit provided 947 customized splints and modified assistive devices. Also 1508 group sessions were conducted.

A total of 38 Occupational therapists received skill development training to provide quality service to the client. A milestone of occupational therapy service delivery is to inaugurate Mental Health Day-care service at CRP-Mirpur. In the reporting year OT department celebrated the 'World Occupational Therapy Day' with a very special round table discussion at the Daily Samokal office in Dhaka and published a supplementary page to mark the significance of the day.

## Speech and Language Therapy

**A patient affected by a stroke receiving Speech and Language Therapy**

Speech and Language Therapists work to prevent, assess, diagnose, treat, providing counseling and other follow-up services for children and adults with speech, language, social communication, cognitive-communication, voice, fluency and swallowing disorders to achieve the department's aim of providing outstanding and caring services to people with disabilities from all over Bangladesh. The Department of Speech and Language Therapy is dedicated to providing a wide range of services for individuals, families, support groups and providing information for the general public.

During the reporting year, Speech and Language Therapists provided services to adult outpatients, Paediatric inpatients and outpatients, SCI Unit, William and Marie Taylor School, and the Multi-Disciplinary Team. The demand has been increasing day by day and a total of 5,843 patients (both adult and children) received Speech & Language Therapy service through individual and group sessions from the out-patient unit during the reporting year including 126 patients with SCI.

This year a few Speech and Language Therapists from all sub-centers of CRP including Savar participated in several training courses including swallowing management, Oral Placement Therapy, sign language training.

## Paediatric

The Paediatric department is devoted to maximize the capabilities of the children with disabilities by providing evidence-based service through collaborative efforts of paediatric consultant, physiotherapists, occupational therapists, and speech and language therapists.

This department offers both inpatient and outpatient services. The 2 weeks inpatient service admits 20 new children with Cerebral Palsy each week. Besides, individual sessions, the inpatients also participate in different kinds of group therapy, parent's meetings, outreach programs as well as weekly ward rounds to set up attainable goals and assistive device selection for maximizing their level of independence.

The outpatient services are offered on a basis of daily appointments for children with Neurodevelopmental disabilities (NDD) aged between 0 to 12 years. A structured autism group runs once a week. In 2021-2022, a total of 880 inpatients and 1,638 children with club feet, and 28,954 outpatient sessions were completed.

An online MAITS training of trainers on working with children with NDD and Posture care management for children with CP and multiple disabilities was arranged by Motivation India and held in March 2022. Two Physiotherapists attended Assessing Clubfoot Treatment (ACT) basic Club Foot treatment training in December 2021.

A team of therapists including PT, OT and SLT working in the paediatric department

## Assistive Devices and Technology

### Prosthetics and Orthotics

In the reporting year, the P&O Department served 5,372 patients with a total of 2,438 devices including 2,163 orthoses, 165 prostheses and 110 orthopedic shoes. In addition, 140 axillary crutches and 79 elbow crutches were also provided.

The department arranged eight mobile camps in Sylhet and Mymensingh where approximately 100 beneficiaries received services in each camp. The demand for prosthetics and orthotics devices with advanced technology is increasing among the service users. Therefore, devices with updated technology are manufactured on a regular basis. We have gender-specific qualified professionals for producing spinal orthoses. The contribution of ICRC is noteworthy in terms of raw material support, professional skill development and higher education. Four staff from this department have already completed their bachelor level professional study in India and Thailand in addition, four certified ISPO category-3 technicians are providing services at Savar, Barisal, Rajshahi and Chattagram. All are trained from Cambodian School of Prosthetics and Orthotics (CSPO). Moreover, one of ISPO Certified Prosthetist and Orthotist professional is doing his master's program in the UK. P&O Department has planned for strengthening the outreach program by increasing the number of mobile clinics arranged across the country.

Professionals doing the primary assessment of an amputee patient

**A child with Cerebral Palsy using a supportive seat**

## **Supportive Seating**

Supportive Seating Unit (SSU) of CRP has passed another successful year with the concept of “Supportive Seating for Independent mobility” for the children with cerebral palsy and other neuro developmental disorders (NDD). The aim of this unit is to produce high quality mobility aids and assistive devices based on individual needs to ensure health and social benefits for the people in need.

SSU produces different forms of therapeutic devices including D-Roll, T-Roll, cervical collar, Lumbar Roll, cervical pillow, Wheelchair Cushions, shoulder slings, bed mattress and others. In this reporting year, a total of 6072 devices were produced including 246 supportive seats and 225 wooden chairs. The In charge of SSU had conducted 3 training sessions on wheelchair service delivery according to WHO Guidelines and Disability Understanding and Assistive Devices among the staff of CRP, Centre for Zakat Management and Walk for life. The Unit also produced a total of 266 devices for the Disabled Rehabilitation & Research Association (DRRA), Bachte Shekha, Center for Zakat Management, GIZ, Sishu Polli Plus, Handicap International (HI), Dhaka Proyash, Mother Teresa Home. SSU team organised 22 health camps in four CRP centers and other organizations. It also introduced customized Posterior Standing frame for children with Cerebral Palsy with the help of two organizations - [standwithme.org](http://standwithme.org) and [beelinewheelchair.org](http://beelinewheelchair.org).

## Appropriate Paper Based Technology

APT unit produces numerous types of assistive devices using waste paper in low resource settings. The most popular products created by APT include paper seating chairs, feeding chairs, hand therapeutic toys, rocking horse, balance boards, different types of show pieces amongst others. Every year John and Janet, experts in APT from England, have shared their ideas and innovative thinking to improve APT production through training and discussion.

In this reporting year APT Unit has produced and delivered 340 cylindrical grasp boards, 85 manipulation ring sets, 62 shape boxes and 614 different toys with raw material support from different organizations like VIYELLATEX, ICRC and others.

## Rehabilitation

### Social Welfare

The Social Welfare Department (SWD) is one of the integral parts of CRP's comprehensive rehabilitation services. CRP believes no one should be left untreated because they cannot afford the cost of medical treatment, rehabilitation and assistive devices. Likewise, the previous years, with the support of generous donors, CRP's Social Welfare Department (SWD) provided subsidies for the treatment and rehabilitation costs of the poorest patients after assessing their socio-economic condition.

SL. No	Subsidy Heads	Number of Service receivers	Amount (BDT)
1	Treatment subsidies for SCI in-patients	267	3,98,18,664
2	Treatment subsidies for Cerebral Palsy children	508	29,10,489
3	Treatment subsidies for post-operative patients	110	10,59,844
4	Therapy, medicine, plaster charge and investigation for out-patients	16,098	1,25,87,490
5	Mobility aids and assistive devices subsidies for in-patients and out-patients	1,623	1,03,21,409
6	Free sewing machine distribution to in-patients and out-patients	20	1,77,050
7	Outpatient subsidies at CRP sub-centres		1,27,05,969
	Total		7,95,80,915

Victory Day observed at CRP

## Vocational Training Institute

People with disabilities make up an estimated one-tenth of our population and can contribute in a significant way to the development of the Country if their right to skilled and decent work is promoted and protected. Fortunately, the Government of Bangladesh has shown a strong commitment to the inclusion of people with disabilities.

CRP Madhab Memorial Vocational Training Institute (CRPMMVTI) has gained the trust and become a popular desired training hub among people with disabilities for capacity building and social inclusion by which they can achieve economic empowerment through self and wage employment. Here at CRPMMVTI, all offered vocational courses are free for people with physical disabilities. During the reporting year, CRPMMVTI has signed an MoU with Palli Karma-Sahayak Foundation (PKSF) to launch a project titled "Training Programs for the disadvantaged group (Persons with Disability)" where skills training matches the market demand and aims to develop persons with disabilities as skilled workers/manpower. A total of 237 people with disabilities received vocational training in this reporting period.

### Training course achievement in the year 2021-22

SL	Course	Total trainees (July 2021–June 2022)	Male	Female
1	Computer Office Application & IT Support Service	31	18	13
2	Electronics & Mobile Phone Servicing	27	27	00
3	Dress Making & Tailoring	12	04	08
4	Industrial Sewing Machine Operator	93	39	54
5	Linking Machine Operator	31	31	00
6	Shop Management	38	36	02
7	Handicraft	05	00	05
	<b>Total Trainees</b>	<b>237</b>	<b>155</b>	<b>82</b>

## Counselling

Spinal cord injury (SCI) is a life-changing event that affects all aspects of life. Developing stress is common after SCI and it can grow over time, clouding the mind and diminishing all aspects of brainpower. It also damages our body's immune system.

In this post-COVID situation, people surviving with SCI are widely suffering from emotional stress. The Counselling Department helps people with SCI cope, and focuses on dealing with loss and mindful living in the post-pandemic world. We explore the client's ways of thinking, accepting limitations, learning and, mastering the new skills that are important to use in daily life in the context of the "real world."

### A peer counsellor guiding a patient with SCI

### Overview of the counselling services

- A total of 291 new cases received counselling service in various aspects of psychosocial health.
- 63 couples and 57 people with SCI in the community and 41 young adults with SCI and 09 outpatients have received psychosexual counselling.
- 35 face-to-face SCI life experience sharing events were completed using community speakers for current patients with SCI
- 113 in-patients with SCI received audio recording of health education in their mobile phone.

## Counselling Department also followed up

A total of 771 people with SCI were called over the phone but only 578 patients received telehealth service and among them, 235 SCI with pressure ulcers were followed-up.

- In the reporting year, 34.47% of pressure sores have been healed, and 28.51 % are improving. The rest are still in same condition as before and are given suggestions to heal up the sores as a daily routine.
- 198 people with SCI who are living in the community received telehealth consultation services regarding various health issues.
- Peer counsellors conducted 35 group audio health care and psychosocial problems sessions where 170 patients participated.

## Community Based Rehabilitation (CBR)

The Community-Based Rehabilitation program was first introduced at CRP in 1994 to address the inclusion of people and children with disabilities in the mainstream society. CBR's core responsibility is to ensure community-based inclusive development of people with spinal cord injury through regular follow-up visits, providing advice and supplying free health accessories for management of secondary complications, conducting advocacy and awareness-raising events. Also, as the emergency response to COVID-19 pandemic a total of 1,794 people with disabilities received dry food packages and 745 were followed up by phone to know the patients livelihood situation during the COVID-19. That includes their health, daily life, income, education, mental health etc.

**Table-1: Patients Follow up and necessary support**

Sl. No.	Activities	Sub Activities	Male	Female	Total beneficiaries
1	Patients Follow up services	Persons with Spinal cord Injury	1161	147	1308
2		Persons with Cerebral Palsy	58	17	75
3		Vocational trainees with disabilities	288	21	309
4		Prosthetics and Orthotics	206	180	386
5		Special home visits (On request of SWD, VTI, SENU)	12	5	17

## Sports and Recreation

CRP strives to achieve the maximum quality of life for people with disabilities. Sports can play an important role in the life of disabled people. It contributes to a healthy lifestyle, provides access to social networks and peer support, and helps develop self-discipline and positive self-esteem, social awareness, and empowerment of people with disabilities. The International Committee of the Red Cross (ICRC) is one of the long-standing disability inclusion activities partners of CRP to develop skills and promote national and international sports participation. Some of the sports activities in the year 2021-22

**Table-01: Regular events summary**

Events Name		Number of programs	Male	Female	Total Participants	Remarks
Table Tennis, Weight Lifting, Wheelchair Basketball, Wheelchair Volleyball, Amputee Football, Rings, Boccia, Darts, Skittles, Shot put, Discus, Balloon Games, Fitness training with music	Daily sports for inpatients	272	62	16	78	Previous inpatients, outpatients and staff with disabilities attended all sports events and persons with disabilities living nearby CRP attended only table tennis, weight lifting and wheelchair basketball.
	Quarterly sports competition for Inpatients	02	65	20	85	
	CRP Annual sports	01	70	20	90

## Academic

### Bangladesh Health Professions Institute (BHPI)

The main objective of BHPI is to produce skilled health professionals. A total of 742 students studied at BHPI during the reporting year. A total of 15 seats have been increased respectively in the BSc and MSc Physiotherapy programs. The Rehabilitation Science Department completed the 1st phase of the Master in Rehabilitation Science project and started the 2nd Phase. A total of 12,033 books, 1,774 theses, 3,010 printed journals and more than 15,000 E-Journals and books are available in the BHPI library. A total of 71 students received stipends and scholarships, among them BHPI waived full and half of the tuition fees for 30 and 22 students respectively in this year.

Guests inaugurating the Annual Sports of BHPI

**A total of 132 students have completed their courses and obtained their degrees in this reporting year.**

Course Name	Number of Students passed	Affiliated Authority
MSc in Physiotherapy	02	Faculty of Medicine, University of Dhaka
BSc Physiotherapy	46	
BSc Occupational Therapy	39	
BSc Speech and Language Therapy	26	
Medical Technology (Physiotherapy, Laboratory Medicine and Prosthetics & Orthotics)	19	State Medical Faculty of Bangladesh, under the Ministry of Health & Family Welfare

### Training and events:

Training and Events	Number of participants attended
“Gynecological Physiotherapy” from 11th to 14th June 2022, facilitated by a volunteer of CRP, Professor Dr. Lori Maria Walton from the University of Scranton, USA	35 Physiotherapy professionals
“Teaching Methodology and Assessment” from November-December, 2021 at the Centre for Medical Education, Mohakhali, Dhaka	50 teachers of BHPI
An international virtual OT cultural exchange program with OT students and faculties of Western Michigan University, USA held on 27 April 2022	41 students of BSc in Occupational Therapy
Core Values	160 students of BHPI
Study tour: BSc PT, BSc SLT and MSc PT students	Mymensingh and Cox's Bazar, Bangladesh

## CRP Nursing College

CRP Nursing College is an academic institute of CRP and was established in 2004 to contribute to the healthcare sector in Bangladesh by producing qualified and skilled nurses. Public and private healthcare settings need nurses with a high level of compassion and a proactive attitude to ensure the delivery of a high standard and appropriate healthcare service.

CRP Nursing College currently offers BSc in Nursing (Four years) course affiliated with the University of Dhaka and Diploma in Nursing Science and Midwifery (Three Years) course approved by the Bangladesh Nursing Council. Diploma in Midwifery (Three Years) course was approved by Bangladesh Nursing and Midwifery Council from 2020-2021 session.

Photo of Nursing students during an exam

### Significant events of CRP Nursing College during the reporting period:

- BSc in Nursing Course final exam was held in July 2021. 122 students passed among 142.
- In October 2021, a total of 145 students were admitted for the academic year 2020-2021.
- Diploma in Nursing Science and Midwifery Supplementary Exam was held in December-2021.
- In May 2022, a total of 130 students were admitted for the academic year 2021-2022.
- Annual Sports and Cultural Competition- 2022 was held from 7th March to 9th March, 2022.
- Diploma in Nursing Science and Midwifery Course final exam was held in March 2022 and 91 students passed the exam among 99.
- International Nurses Day was observed on 12th May 2022.

## School of Prosthetics and Orthotics

The School of Prosthetics and Orthotics under the Bangladesh Health Professions Institute is the only institute in Bangladesh that offers the formal prosthetics and orthotics education necessary for a successful and efficient rehabilitation service to persons with amputation in Bangladesh. With the kind assistance of the International Committee of the Red Cross (ICRC), GIZ, Germany, and BGMEA, the school was established in 2014. It offers two courses, a B.Sc in Prosthetics and Orthotics affiliated with the Faculty of Medicine of the University of Dhaka and a diploma in Medical Technology (Prosthetics & Orthotics) affiliated with the State Medical Faculty of Bangladesh. Ministry of Health and Family Welfare (MoHFW) Bangladesh approved both the programs. There are now 28 students enrolled in the institute (10 in the B.Sc course and 18 in the Diploma Course). Students at the institute have access to excellent classrooms and lab facilities. Six full-time and one part-time faculty members, including two from abroad (from Indonesia and India), teach here. One faculty member is continuing his higher education at Mahidol University, Thailand. The International Committee of the Red Cross provides the school with technical, material, and patient support for practical demonstrations to run its activities efficiently. Additionally, PRIMARK supports the institution with salary assistance for its international faculty members.

The School of Prosthetics and Orthotics received ISPO CAT-II recognition for its diploma program in 2018. Twenty-eight diploma graduates of the school received an ISPO CAT II certificate.

## William and Marie Taylor School (WMTS)

William & Marie Taylor School (WMTS) is the inclusive school of CRP established in 1993. There are two units named Inclusive Education Unit (IEU) and Special Education Needs Unit (SENU). The IEU follows the national curriculum of Bangladesh and SENU follows Individual Education Plan (IEP). During the reporting year, the school had 26 teachers and 276 students, including 116 children with a disability (CWD) who constitute 42% of the total students. Among these 116 CWD, 46 students studied in the IEU and 48 students who have more individualized education needs have studied in the SENU. Due to the Covid-19 pandemic, the school was closed for last two years and from 2022, the physical classes with other co-curricular activities have started following the health instruction conscientiously.

Children of WMTS performing in a programme

**In addition, the following activities were ensured in the reporting year:**

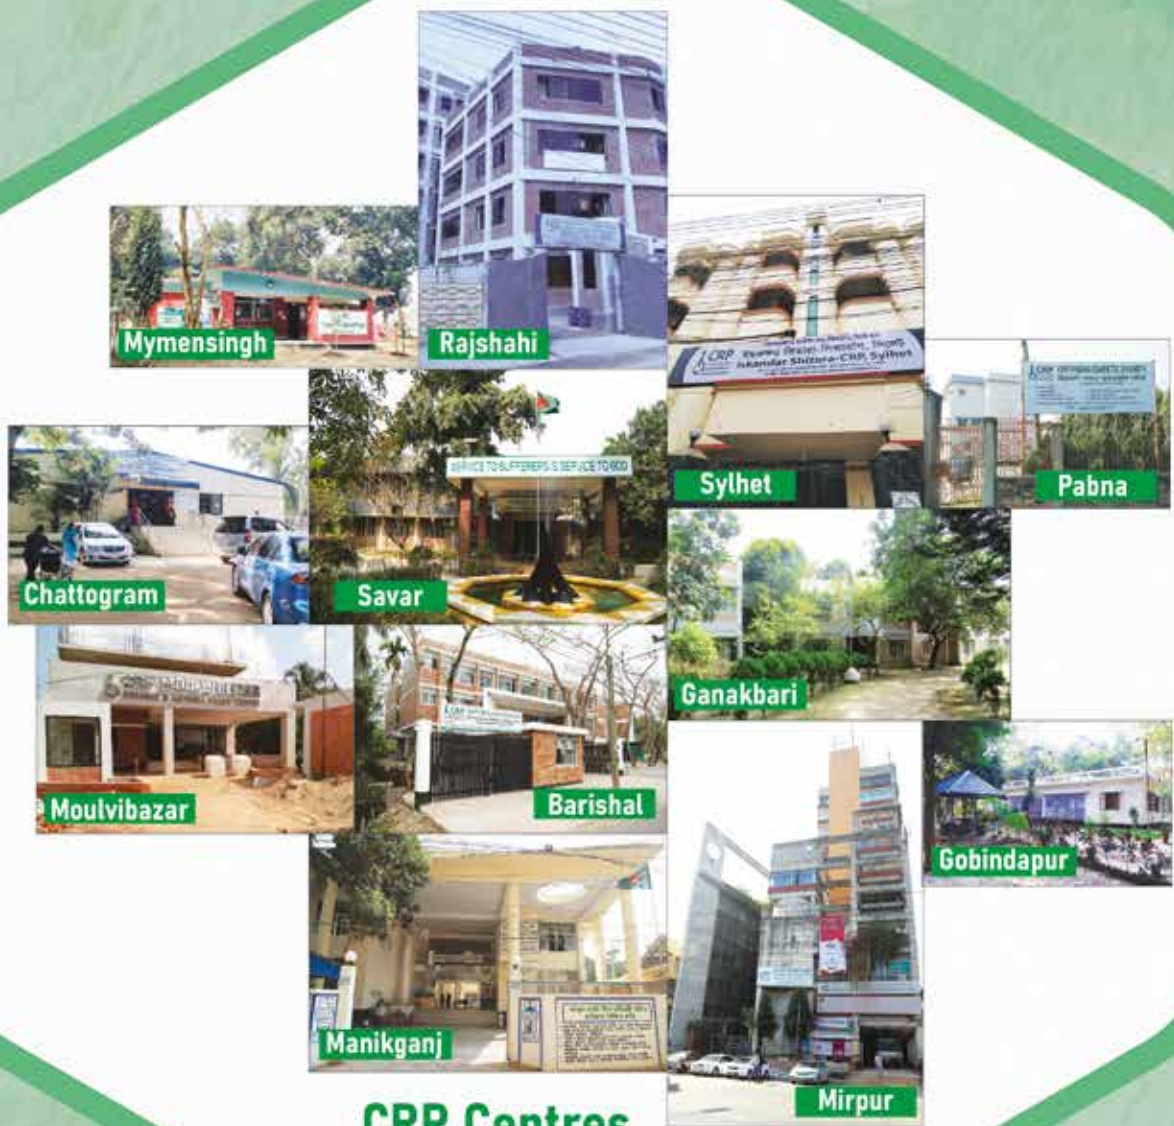

1. Faraaz Hossain Foundation arranged an Art Festival on World Cerebral Palsy Day on 6 October 2021. All children including those with cerebral palsy from WMTS and CRP Paediatric Department enjoyed the event.
2. International Children's Day 2021 was celebrated on 20 November to raise awareness about child rights in Bangladesh.
3. International Mother Language Day was observed on February 21st, 2022.
4. Annual sports 2022 were held on 15th March after two years due to COVID-19. Total of 41 students with and without disabilities won prizes in different sports events.
5. WMTS has overseas and local volunteers working throughout the year. Isabel, an overseas volunteer, from the UK worked as a general volunteer at WMTS for a month in 2022.
6. Four students were selected as "Khude Doktor" (junior doctors) among the students of the school. They provided deworming tablets to all children over 5 years of age and created awareness among the school students.
7. Two Assistant Teachers participated in online training for children with Neurodevelopmental Disorders (NDD) for seven days. While 11 Assistant Teachers took part in the online MAITS training of trainers on working with children with NDD and posture care management for children with CP and multiple disabilities for six days. Additionally, four assistant teachers including Principal of WMTS participated in the computer basic course and training under Bangladesh Bureau of Educational Information and Statistics.
8. In the Talent Search Competition 2022 organized by Bangladesh Scouts, one cub scout from the school won the third position in the music competition and another cub scout with special needs won the third position in the drawing competition.

A multidisciplinary approach involving Physiotherapy, Occupational Therapy, Speech and Language Therapy and horse riding was used to treat children with a wide range of disabilities. Thirty-eight (38) children with special needs are staying at WMTS residence currently and one house mother with Twenty-two (22) support staff look after them at the hostel.

**CRP Centres  
in Bangladesh**

## CRP Sub - Centres

### CRP Mirpur

CRP Mirpur is one of the sub-centres of CRP located at the prime area of Dhaka City, Mirpur Section 14. It provides Therapeutic and Rehabilitation services including Physiotherapy, Occupational Therapy, Speech & Language Therapy, Prosthetics and Orthotics services, Psychosocial counselling services etc.

CRP Mirpur has a paediatric Unit offering therapeutic management of the children with disabilities including Cerebral Palsy, Autism, Down Syndrome and other paediatric disability conditions. It also has a two weeks paediatric in-patient service where the parents of the children with disabilities are trained for the management of their children and therapeutic management of the child.

There is also a specialized stroke rehabilitation unit at CRP Mirpur offering in-patient therapeutic and rehabilitation services for the stroke patients requiring physiotherapy, occupational therapy, speech and language therapy, counselling services etc.

Domiciliary (home-based) service is a unique service offered within the capital city to provide therapeutic services to patients in their homes who are unable to make a trip to CRP Mirpur for their treatment. During the reporting year CRP Mirpur provided the following services:

**Number of patients treated: 28,064**  
**Number of Prostheses provided: 08**  
**Number of Orthoses provided: 2,026**

### CRP Ganakbari

Ganakbari centre assists the reintegration of women with disabilities into mainstream society with appropriate training along with a workshop producing assistive devices and mobility aids as part of its income generating activities. Currently 2 major projects run in the centre. The Marks & Start Project provides ready-made garments (RMG) based training ensuring job opportunities and a Mental Health day-care centre with occupational therapy for patients with psychological difficulties introducing other income generating activities.

**Number of patients treated: 126**  
**Number of vocational trainees (girls) trained: M&S Project-55, Various Handicrafts-8, Mental health patients-6**  
**Number of assistive devices provided: 7 (June 2021-December 2021)**  
**Number of Community based IGA support provided: 5 (Sewing Machines Provided)**

### CRP Rajshahi - Afsar Hussain

CRP Rajshahi, Afsar Hussain is a divisional centre of CRP, which started its journey on 27th July 2013 in Rajshahi division. It is a well-furnished four & six stories building where patient accommodation and expansion of service facilities are available. The centre offers all outpatient facilities including medical care, physiotherapy, occupational therapy, speech and language therapy, prosthetics and orthotics service and patient follow up. Special services such as a senior citizen corner and Chapainawabganj corner for patients coming from that area have also been introduced in the reporting year.

**Number of patients treated: 1981**  
**Amount of subsidy provided to 960 poor patients: BDT 12,46,070**  
**Number of assistive devices provided: 04**  
**Number of Prostheses provided: 11**  
**Number of Orthoses provided: 350**

## **CRP Chattogram – AK Khan**

CRP Chattogram – AK Khan Centre has been providing rehabilitation services since 2011 in partnership with AK Khan Foundation covering the southern part of Bangladesh. This centre is getting popular among patients and people from Chittagong Division for its specialized rehabilitation services. Besides this centre has also been operating a project at the Rohingya Refugee Camp named Health and Rehabilitation Services for Rohingya Persons with Disabilities (HRS) since June 2021.

**Number of patients treated: 2765**

**Amount of subsidy provided to 675 poor patients: BDT 25,53,060**

**Number of assistive devices provided: Wheelchair-09, Supportive Seating Wheelchair-08**

**Number of Prostheses provided: 196**

**Number of Orthoses provided: 378**

**Number of Community based IGA support provided: 27**

**Mobile Camp: 03**

**Dry Food Distribution: 6 times among 250 persons with disabilities**

## **CRP Barishal – CARSA Foundation**

CRP Barishal is a divisional centre situated in Kashipur Barisal. The centre started its journey from July 2013 with the mission to promote an environment where all disabled people of this area can easily access rehabilitation services. Here we offer outpatient services including medical care, physiotherapy, occupational therapy, speech and language therapy, prosthetics and orthotics service and patient follow up.

**Number of patients: 2,458**

**Amount of subsidy provided to 749 poor patients: 15,97,830**

**Number of Assistive Devices provided: 360, elbow crutch-08, auxiliary crutch-46**

**Number of Prostheses provided: 31**

**Number of Orthoses provided: 275**

**Number of IGA Support provided by HEAR project: 18, Grocery shop -11, Tailoring shop -7**

**Awareness program by RRED Project: 06**

**Number of persons received COVID-19 safety kits: 208**

**Number of persons received Dry food packages: 234**

## **CRP Sylhet – Iskandar Shitara**

CRP Sylhet – Iskandar Shitara centre initiated its services in May 2017 as the 4th Divisional centre across the country. At present, the centre is running its services in a rented building at Shah Jalal Uposhahar, Sylhet. It will be shifted to its own land in near future which was donated by Advocate Moinuddin Jalal, dedicated to the memory of his beloved parents. Services offered here are physiotherapy, occupational therapy, speech and language therapy, prosthetics and orthotics service.

**Number of patients treated: 1,092**

**Amount of subsidy provided to 414 poor patients: 6,77,365 BDT**

**Number of Assistive Devices provided: 24**

**Number of Prostheses provided: 04**

**Number of Orthoses provided: 63**

**Number of persons received Dry food packages: 80 persons supported by the AFCRP**

## **CRP Gobindapur**

CRP-Gobindapur is situated in Kulaura Upozila of Moulvibazar District in Sylhet Division. The centre has four bungalows on its 13.3 acres site which can be rented by foreign/domestic tourists and guests. Generated income from this guest accommodation is used for the rehabilitation of the poor persons with disabilities in CRP centres. Within 50 minutes you can travel to more than 10 sightseeing places from CRP-Gobindapur. CRP caters for both individual and group meals at reasonable prices. A team of experienced staff is here to welcome you and ensure your stay is comfortable. A unique combination of comfort, noise free environment and warm hospitality makes CRP-Gobindapur a truly memorable experience for all guests.

## CRP Moulvibazar – Afsarul and Aktarul Haque

As the first stage in developing a Sylhet divisional service centre, CRP was launched as an outpatient therapy service at Moulvibazar in April 2011. The start-up cost of the center was raised by a British paraplegic wheelchair user Peter Donnelly. Since its establishment, CRP-Moulvibazar conducted its services using Engineer Sayed Abdul Goffar's two-storied house from 2011 to 2019, which for CRP was rent free.

CRP received fifty-three (53) decimals of land at Mokambazar adjacent to Moulvibazar-Dhaka highway from Mr. Afsarul Haque & Aktarul Haque in February 2018. Finally, on 26th February 2022, the centre started its services in its own building. The inauguration program of CRP Moulvibazar – Afsarul and Aktarul Haque held on the 23rd of June 2022, was attended by Mir Nahid Ahsan, Deputy Commissioner and District Magistrate, Moulvibazar, as the Chief Guest, Mr. Daichi Iwasaki, Second Secretary from Embassy of Japan in Bangladesh, Mohammad Zakaria, Superintendent of Police, Moulvibazar, and Md Fazlur Rahman, Mayor of Moulvibazar Municipality attended as the Special Guests. The program was chaired by Muhammad Saidur Rahman, Chairman of the TRP, and the closing Speech was given by Dr. Muhammad Sohrab Hossain, Executive Director of the CRP.

**Number of patients treated: 881**

**Amount of subsidy provided to 241 poor patients: 2,05,130**

CRP staff members and guests in front of the newly constructed building at CRP Moulvibazar

## CRP Mymensingh – BAU

The CRP Mymensingh - BAU Centre is a sub-centre in Mymensingh division which started its journey on 15 July, 2017. It is a single storied building situated in Bangladesh Agricultural University campus in Mymensingh, Bangladesh. At present the Centre offers only out-patient treatment services including Physiotherapy, Occupational Therapy, and Speech & Language Therapy. Regular campaign-based Prosthetics & Orthotics Services, Supportive Seating, Assistive and Mobility Device Services are also available. The centre runs Community Based Rehabilitation (CBR) Services in greater Mymensingh region as well. CRP Mymensingh has served highest number of patients and gained the highest income and surplus amount in the reporting year.

**Number of patients treated: 2237**

**Amount of subsidy provided to 176 poor patients: 1,68,485**

**Number of assistive devices provided: 88**

**Number of Orthoses provided: 76**

**Number of community-based IGA support provided: 15**

Staff members of CRP Mymensingh  
observing World Occupational Therapy Day

## CRP Manikganj

CRP Manikganj provides outpatient services and vocational training facilities for persons with disabilities under Rehabilitation Wing. The centre started its services at the end of 2021. The official inauguration was held on 29th March, 2022 in the presence of the State Minister, Ministry of Social Welfare, Bangladesh. A brand-new basketball court has been constructed for the vocational trainees which was funded by Continental Garments Private Limited.

**Number of patients treated: 941**

**Amount of subsidy provided to 18 poor patients: 20,230**

Honourable State Minister of Social Welfare Ministry  
inaugurating CRP Manikganj Centre

## Projects

### Regional Inter-Professional Master's Program in Rehabilitation Science funded by SAARC Development Fund

The first phase of the project resulted in the enrollment of 120 students with scholarships from SAARC Member States during the project period - June 2013 to May 2020. Among them, 60 students were from Bangladesh and 60 students were from other SAARC Member States. As per an independent evaluation of the project, there was significant impact on employment after graduation. More than three out of four graduates were employed and about half of the remaining graduates were pursuing further studies. About four out of five graduates either joined a new job or were promoted after graduation. Furthermore, the graduates' working field also shifted toward leadership roles after graduation with more graduates' involvement in teaching and management roles. The graduates were contributing to the treatment and rehabilitation of persons with disabilities. They had employment in teaching, research, clinical practice and leadership roles in local and regional development and policy initiatives in the SAARC Member States.

The Board of SAARC Development Fund (SDF) approved phase-II of the project at its 31st board meeting in Colombo, Sri Lanka on 23-24th August, 2019 which expected to result in the enrollment of 135 students with scholarships and provision of enrollment of 15 self-financing students during the project period - July 2022 to June 2027.

Graduates of MRS 5th batch during their farewell programme

## **Establishment of a Rehabilitation Centre for Poor Persons with Disabilities in Moulvibazar district, Sylhet**

The Embassy of Japan in Bangladesh funded the construction of the ground floor of CRP Moulvibazar- Afsarul and Aktarul Haque Centre. This rehabilitation centre was established to provide treatment and rehabilitation services to poor persons with disabilities residing in Moulvibazar district, Sylhet. The project commenced on 30th March, 2020 and was completed on 28th February, 2022. A total of USD 1,17,983 was granted by the Grant Assistance for Grassroots Human Security Projects (GGHSP) fund of the Embassy of Japan.

## **Meaningful Social Access for the Persons with Mental Health Needs (MAP) Project funded by Kadoorie Charitable Foundation (KCF)**

Meaningful Social Access for the Persons with Mental Health Needs (MAP) is a three-years project implemented by CRP, funded by Kadoorie Charitable Foundation covering 10 OPDs of five districts. The project provides mental healthcare support to persons with mental health needs and a comprehensive psychosocial rehabilitation of the clients through two Day-centers which are situated at CRP-Ganakbari and CRP-Mirpur. The project provides vocational training to help them to start income generating activities by themselves. From January to June 2022, the project arranged a project inception event, inaugurated a new mental health day centre in CRP-Mirpur, arranged two stakeholder meetings for community sensitization, signed MoU with the 10 organizations of persons with disabilities (OPDs) and arranged Training for Trainers (ToT) for OPD representatives and Sub-Assistant Community Medical Officers (SACMO). "Basics of Access to Mental Health" for ToTs on mental health and a Mental Health Manual was developed for mass awareness. 237 clients received psychiatric consultancy and Multi-disciplinary team (MDT) screening service from CRP-Savar. CRP-Ganakbari Day Centre provided services to 30 clients and their caregivers. 46 clients received a counselling session with the clinical psychologist on an appointment basis. 74 clients received psychiatric consultancy and MDT screening at CRP-Mirpur Day Centre which started from April 16, 2022. In total 11 clients and their caregivers are receiving services on daily-appointment basis.

**Guests visiting the mental health day centre's activities during the project inception program at CRP Mirpur**

## Marks & Start (M&S) Industrial Project

The aim of this project is to ensure economic empowerment by creating employment opportunities for the people with disabilities in the area of Readymade Garments (RMGs). CRP offers free vocational training courses for the people with disabilities along with 100% job placement in the Marks & Spencer supply factories or other factories in Bangladesh. The Marks & Start project is a Corporate Social Responsibility (CSR) initiative of Marks & Spencer and since 2006, they have been promoting disability inclusion activities. Till the reporting period, a total of 3,179 persons with disabilities received training on the operation of both industrial sewing machines and linking machines. A total of 85 Marks & Spencer supply factories offer inclusive job placement to the persons with disabilities via Marks & Start Industrial project of CRP.

Trainees at M&S project's industrial sewing machine operation class

### M&S Project major activities for the years 2021-2022

SL	Name of Project activities	Number of events	Number of participants
1	Job Selection Event	4	216
2	Number of trainee graduates	3	29
3	Post-job monitoring service	5	45
4	COVID 19 Phone Follow up	1	469
5	Community event	4	150
6	Counselling session	5	97
7	Project Coordination meetings	8	10
8	Certificate distribution ceremony	2	50
9	Registered Training Organization (RTO)	3	29
10	Experience sharing & Iftar Mahfil	1	500

## Spinal Cord Injuries Development Association Bangladesh (SCIDAB)

SCIDAB has been working closely with persons with spinal cord injuries (SCI) in Bangladesh for their development and the prevention of further complications to their health. It aims to unite them in raising a strong voice against all types of discrimination against people with disabilities and to establish an inclusive society for all. This association is operating its activities through a 13-member Executive Committee (EC) from the head office of CRP, Savar, Dhaka and Committees of 5-members in Rangpur, Rajshahi, Dinajpur, Takurgaun and Nilfamari. SCIDAB is unique in the sense that all of its members and office staff are persons with SCI. At present 2,450 persons with SCI have become members of SCIDAB.

### Activities in the reporting year of July 2021- June 2022

- Assistive devices distribution and IGA support: wheelchairs - 38 and sewing machines - 4.
- Distributed food packages, cash amount and cleaning materials to around 1,000 spinal cord injured members during frequent lockdowns for Corona Virus.
- Cash amount distributed to 50 spinal cord injured members affected by the recent floods.
- Winter clothes distributed among 150 persons with spinal cord injury.
- 14th January 2022, SCIDAB arranged Annual Picnic 2022 with the participation of 150 members.

## Vocational Skill Development Training Support for People with Disabilities and Underprivileged to Reintegrate into Mainstream Society by TESCO

Since 2014 two phases of the TESCO brand-funded vocational training project for people with disabilities was completed successfully and the third phase with a target of training 150 persons with disabilities is ongoing. During the reporting year, a total of 136 trainees with disabilities completed their training.

This project aims to create an opportunity where people with disabilities will enjoy the right of full participation, be a productive workforce, be empowered, and contribute to the family income.

### Yearly intake of the TESCO Project

SL	Skill Training Courses	Total Trainees	M	F
1	Industrial Sewing Machine operator	36	36	0
2	Linking Training Machine operator	15	15	0
3	Dressmaking & Tailoring	11	4	7
4	TV & Radio Repair	12	12	0
5	Computer Office Application	11	7	4
	Total	85	74	11

## The VERY GROUP-STEP Project

This STEP brand-funded vocational training project for people with disabilities started in April 2022 with a target to train 30 persons with disabilities. From April to June 2022 a total of eight persons with disabilities received training under this project.

## Story of Mahbub bin Mohiuddin

Mahbub bin Mohiuddin works as the Assistant Fitness and Recreation Activities Trainer in the Rehabilitation Wing of CRP. He is a cheerful young man of 30, a person with spinal cord injury and uses a wheelchair for mobility. He is happily married and they have an adorable baby girl.

Life would have been different if he did not have that accident in 2017, he often thinks. Dropping out from college, he started his own business of computer servicing and garments items. Among the three siblings, he was the most active one. As his father lived in Saudi Arabia, his mother depended on him a lot.

The day of his accident is still vague to him, he can only remember that he was riding a bike and the next thing he can remember, he was in the hospital. He had a severe head injury and the doctors at first operated on it without any knowledge of his spinal cord injury. His sister was very concerned of his inability to move his legs and the doctors suggested an MRI investigation to find the cause. The doctors then found his spine broken with spinal cord injury and suggested to be in bed rest for a few days. The family, one and a half month after the accident, visited a doctor from Vellore, Chennai, India at the Apollo Hospital and the doctor told them to take him to CRP for rehabilitation.

After coming to CRP, the multi-disciplinary team checked him and started his rehabilitation process. Here he stayed for five months and received physiotherapy, occupational therapy and counselling services. Upon completing his rehabilitation, he also received vocational training on computer operation and worked as a volunteer in CRP's cultural activities. He married a lovely young lady in 2019, had their first baby in 2021 and they are expecting their second baby soon. He joined CRP as a staff member in 2020 and works in the Sports Rehabilitation Unit of CRP. He is an excellent singer and a wheelchair dancer.

He is content with his life but still wishes to fulfil his dream of restarting his own business. Also he is grateful to CRP for supporting him throughout the journey.

## Other Departments

### Human Resources

CRP's Human Resources Department works to ensure the creation of a competent workforce in the different work stations, to promote people with disability (PWD) and to align all functions with the vision and mission of CRP. CRP adopted a policy of zero tolerance against all kinds of sexual harassment and aims to establish a working environment which is free from gender conflict and with equal gender rights.

The following information is for the reporting year of July 1st 2021 to June 30th 2022.

- **Total number of employees (as of June 30, 2022)** : **1328**
  - Male Employee : 626
  - Female Employee : 535
  - Employee with disabilities : 91
  - Intern : 103
  - Daily Basis : 64
  
- **Yearly turnover rate** : **9.14 %**
  
- **Training & Development sessions**
  - Local Training/Workshop/Awareness : 64
  - Core Value Session : 7
  - International Training/Workshop : 5

### Fund Raising, Resource Mobilisation, Grants and Compliance Management

Fund Raising, Resource Mobilization, Grants and Compliance Management Department is solely responsible for receiving funds, grants and proper utilization of the fund including time to time reporting and responding to the respective donors in order to maintain the local, national and international potential donors' regular communication. The regular activities of this department include developing project proposals, receiving and managing different types of donations by national and international donors.

## Friends of CRP

### Valerie Taylor Trust

We have been delighted to see that in 2021-2022 CRP has completed the construction of the ground floor of the new CRP centre at Moulvibazar and has started delivering services there. We are now raising funds for the completion of the first and second floors with the help particularly of the British Bangladeshi community in the UK. We were fortunate to have Valerie Taylor herself as speaker at two fundraising dinners for invited guests during the year, and continue to be surprised by the generosity of those who come forward to help: three people gave us £5,000 each as a result of fund-raising dinners, and other supporters have raised similar sums from websites they set up with our help to attract donations from their friends.

In 2021-2022 the opportunities for travel between UK and Bangladesh remained very limited, but as the threat of Covid reduces, we look forward to more face-to-face contacts in the future.

#### **Ben Clarkson Chair,**

Chairman, Valerie Taylor Trust

### Friends of CRP- Canada Society

Due to COVID-19 restrictions we could not arrange any fundraising events in the reporting year.

#### **Carolyn Scott**

President,

Friends of CRP- Canada Society

E-Mail: [carolynleescott@gmail.com](mailto:carolynleescott@gmail.com)

### Friends of CRP- Germany

Friends of CRP Germany is a small society, located mainly in Munich but also in several cities of Germany. Unfortunately, it was not possible to execute our traditional Flea market because of too many COVID restrictions. Our partner school in Ottobrunn, which is based near Munich, was not able to collect donations. We hope times will change and we can continue to support the work of CRP in Bangladesh.

#### **Elke Sandmann**

Chairperson,

Friends of the CRP-Germany

E-mail: [eksandmann@gmx.de](mailto:eksandmann@gmx.de)

### Friends of CRP Sweden

2021 was another year that was affected by the pandemic of COVID-19. Fundraising was therefore difficult due to local restrictions. We were happy to be able to attend a couple of jumble sales to raise money for CRP. So almost all raised money has been donations from members and private donors. A rather regular income has been donations from a senior community. FCRP Sweden is a very small organization with only 8 members during 2021. Our economic year runs from 1st of January to 31st of December each year.

We are still affected by the change of bank laws in the EU, which have made it harder to collect money (coins and bills) and send money to CRP in Bangladesh. VTT therefore kindly helped us to transfer money for 2021 – 16 592 SEK in December 2021.

#### **Marie Portström**

Chairperson FCRP-Sweden

## American Friends of CRP

During the month of Ramadan we collected a good sum of money. In this fiscal year we sent \$229,700.00 to CRP Bangladesh which includes \$100,000.00 Dollars for Pabna CRP, \$20,000.00 for purchasing the elevator for Rajshahi CRP & \$10,000.00 for food distribution to CRP's patients.

AFCRP President, Mrs. Hosne Ara Begum during her visit to CRP Dhaka signed an agreement for AFCRP-CRP Endowment Fund with a target to raise Tk 2 crores within next few years.
